The Town Hall. This noble edifice is built entirely of hard sandstone, and covers an area of 4,920 s quare yards. In style it is Renaissance of a modern character. The clock tower rises to a height of 200 feet, and is surmounted by a bronze statue of Vulcan, 7 feet high, the clock, which has four illuminated dials, each 8 feet in diameter, being a counterpart of the one in Lincoln Minster.

Dear G. Could you put George & myself up on Saturday night? If we come over in the motor, we can sleep together, & perhaps leave the car on Town Yard. Malcolm
